COMPETITION FORMAT AND RULES RUGBY SEVENS

As of 23 JUN 2014

Youth Olympic Competition Format

The Youth Olympic Rugby Sevens competition consists of Men's and Women's events. The six competing teams in each event are placed into a single pool, with a round robin format. Match points will be awarded for these matches as follows:

- Win = 3 points
- Draw = 2 points
- Loss = 1 point
- No show = 0 points

Following the completion of the pool matches, the top four teams progress to the semifinals (1st ranked team plays against 4th ranked, and 2nd ranked team plays against 3rd ranked) and the remaining two teams play in a 5th/6th placing match. The semifinal winners play in the gold medal match and the semifinal losers play in the bronze medal match.

Differences between the Sevens World Series and the Youth Olympic Games

There are more teams taking part in the Sevens World Series. In addition to the medal competition there are also the Plate, Bowl and Shield competitions.

Sport Rules and Procedures

The Youth Olympic Rugby Sevens competition will be conducted in accordance with the Laws of the Game, IRB regulations and IRB World Series Sevens Tournament Manual 2012/2013.

Game Description

Rugby Sevens is a fast and exciting team sport where the objective of the game is that two teams should, by carrying, passing, kicking and grounding the ball, score as many points as possible. A Try is worth five points and is awarded when a player touches the ball down on or beyond the opposing team's Try Line. After a Try is scored, the team also has a chance to register an additional two points with a Conversion Kick. If the opposition commits a penalty, a team can choose to drop-kick at the goal which, if successful, is worth three points. During play, a team may also attempt to drop-kick the ball through the posts for a drop goal which is also worth three points. Play only stops when there is an infringement or when the ball goes out of play.

A match is played with no more than seven players in each team on the field of play. A team can substitute or replace up to five players. Temporary replacement of a player is permitted for a blood injury. A player who has been replaced due to injury may not resume play in the same match. A player who has been substituted may not resume play in the same match except in the case of a temporary blood replacement. No replacement or substitution may be made except with the permission of the referee, and only during a stoppage in play.

In line with IRB Laws and Regulations, all matches will be officiated by five officials (referee, two assistant referees and two in-goal referees) together with the IRB appointed Citing and Judicial Officials.

Match Duration

The duration of all the matches except the medal matches is seven minutes each half with a two minute half-time interval. The duration of the bronze and gold medal matches are ten minutes each half with a two minute half-time interval.

Tie Break Rules

Pool ranking

- If at the conclusion of the pool stage two teams are equal on match points for any position in the pool, the team that won the match between those teams will be ranked higher in the pool.
- If the match between the two teams was a draw, then the following process will be used to determine the ranking:
 - The margin of points scored for and against a team in all pool matches will be considered. The team with the highest positive margin of points will be ranked higher in the pool.
 - If the tie remains unresolved: The margin of tries scored for and against a team in all pool matches will be considered. The team with the highest positive margin of tries will be ranked higher in the pool.
 - If the tie remains unresolved: The team that has scored the highest number of points in the pool matches will be ranked higher in the pool.
 - If the tie remains unresolved: The team that has scored the highest number of tries in the pool matches will be ranked higher in the pool.
 - If the tie still remains unresolved: The tie will be resolved by a coin toss between the Team Managers.
- If at the end of the pool stage more than two teams are tied on match points then the following process will be used to determine the ranking:
 - The margin of points scored for and against a team in all pool matches will be considered. The team with the highest positive margin of points will be ranked highest in the pool.
 - If the tie remains unresolved: The margin of tries scored for and against a team in all pool matches will be considered. The team with the highest positive margin of tries will be ranked higher in the pool.
 - If the tie remains unresolved: The teams concerned will be ranked by reference to the number of points scored in all pool matches. The team with the highest number of points scored in the pool matches will be ranked higher in the pool.
 - If the tie remains unresolved: The teams concerned will be ranked by reference to the number of tries scored in all pool matches. The team with the highest number of tries scored in the pool matches will be ranked higher in the pool.
 - If the tie still remains unresolved: The tie will be resolved by a coin toss between the Team Managers.

A match

- A match in the pool stage can end in a draw.
- If a match in the final stage ends in a draw extra time is required. After a break of two minutes, during which the referee organises a toss with the team managers to decide which team will kick off from which end, the extra time is played in periods of five (5) minutes. The team which scores first in extra time will immediately be declared the winner without further play. If additional periods of extra time are required teams change ends without an interval.

Penalties / Disqualification Rules

Penalties can be awarded for many reasons in rugby. Some of the most common are: high tackle (tackle above shoulder height), not rolling away at a tackle or ruck (a player on the ground must not interfere with play), being offside. A severe or cynical offence may result in a yellow card, at which time the player spends two minutes in the sin-bin and the team plays the ensuing period a player down. For very serious offences, the referee can issue a red card, which means the offending player is sent off for the remainder of the match.

Protests / Appeals

The protests and appeals process will be according to IRB Rules and Regulations.

- The Referee will manage all matches and any incident on the field of play during a match not seen to be properly dealt with by the Referee will be reviewed by the Citing Official; the Citing Official will decide whether or not to issue a report for further action to be taken and must issue this report within one hour following the completion of the match.
- A team may refer an incident to the Citing Official; the Citing Official will decide whether or not the referral will be upheld.

- A Judicial Officer will conduct a hearing as quickly as possible once the Citing Officer's report has been issued and will decide whether or not to uphold the Citing Officer's Report and if so, will issue a sanction in line with the IRB's Disciplinary Guidelines.
- A team may appeal the decision of the Judicial Officer but the player will not be permitted to play again in the competition until the appeal is heard.
- Any dispute not related to the playing of the match will be dealt with by the IRB's appointed Technical Director in accordance with the tournament dispute resolution guidelines.

Note:
